

Seller Pricing Guide

Please note: This pricing is based on what items have consistently sold for in the past. Obviously, condition and size also determine the price. For example, juniors sizes typically sell for more. Items will sell for more or less than shown here, but this is a baseline of the more consistent prices.

We respectfully ask that the Sellers price their clothing at a minimum of \$1.00.

Pricing should be done in \$0.50 increments.
